UNIVERSITY PROJECT (2025-ONGOING)

Head of the events department: (2026-2027)

I organize and coordinate events for the entire promotional campaign, from conception to logistics. **I manage a team of volunteers**, handling activities, **internal communication**, and task delegation. I also managed the association's **TikTok** account, where I developed an **editorial strategy** and oversaw **video production**.

2026 :

Project Manager & Community Manager, SPA fictional Campaign:

I led a **team of five people** on a **fictional digital communication campaign** for the Haute-Loire branch of the SPA (Society for the Prevention of Cruelty to Animals). As part of the "SPA Christmas" campaign, I implemented a **multi-channel strategy** encompassing **social media**, **posters** (created using **Canva** and **Adobe Illustrator**), **video** (**CapCut**), and a **microsite**. As **community manager**, I spearheaded content creation, **emotional storytelling**, and the writing of calls to action, with the objectives of promoting responsible adoption, donations, and volunteer recruitment.

Project Manager, Iris Campaign:

I led a **team of four students** on a comprehensive **multimedia communication campaign**, overseeing the development of the **communication strategy** (SWOT and PESTEL analyses, **SMART** objectives, and **personas**). I designed the **complete visual identity** (logo, style guide, and art direction) using **Adobe Illustrator** and **Canva**, and created a **bilingual WordPress website** integrating all the content. I also produced a **promotional film** from start to finish, including scriptwriting, filming, and editing, using **Adobe Premiere Pro** and **CapCut**. **Project management** was handled via **Trello** and **Gantt** charts, culminating in **two oral presentations**, one in French and one in English, **before a jury** in June 2026.

Co-head of the graphic design department, Journal Interface 2026 edition:

I was responsible for the **art direction** and coordination of the graphic design department at the student newspaper **Interface**, ensuring the **publication's visual consistency**. I handled the graphic design and layout using **Adobe InDesign**, working closely with the editorial and communications teams.
